

J. Tortorella Pools, Inc.

Job Description

Gas Service, Repair & Installation Technician

Department: Gas and Heating

FLSA Status: Non-Exempt

Work Schedule: Monday-Friday, Saturdays in season

POSITION SUMMARY

Install & repair propane & natural gas distribution systems using galvanized (with pipe cutting & threading machine), poly plastic (with electro butt fusion machine) and CSST piping/tubing. Set above ground and underground propane tanks & regulators. Pressure and leak testing & detection. Build natural gas meter piping manifolds. Gas appliance service & repair - pool & spa heaters, stoves, boilers, furnaces, dryers, fire tables & pits, gas fire logs, generators, BBQ grills & water heaters. Pool automation - remote smart phone control systems troubleshooting. Knowledge of NFPA 54 & 58 safety codes & CETP training courses. Troubleshooting & diagnosis using multimeters, data loggers & monitoring systems. Larger family owned truly local company with small team camaraderie. Enjoy coming to work.....not just a job-- a rewarding & stimulating career position. Small friendly team of experienced technicians to partner up with you to grow and learn. Regular training & safety meetings to share knowledge & stay current developments. No limit on your growth other than your dedication/pride in being the best. Competitive hourly rate with overtime.

Full benefit package including health insurance, vacation and holidays, 401K plan

SKILLS & ABILITIES

Education: HS graduate or GED equivalent

Other requirements: Valid drivers license in good standing, trade school/seminar certifications a plus.

Experience: Minimum 1-2 years related experience working on gas appliances or swimming pool heaters.

EXPERIENCE PREFERRED --- but will consider a motivated mechanically inclined person eager to learn with a can-do attitude and personal pride
